# DOJO Three-Pulse System and Chakra Integration Framework

System Architecture Overview

Practical Implementation Framework

DOJO Pulse	Chakra Alignment	Implementation Method	Resonance Function
Historical Truth Scanner (108Hz)	मूलाधार + स्वाधिष्ठान	NixOS-based sonar scanner	Foundation + Memory verification
Present Verification (528Hz)	मणिपूर + अनाहत	Real-time data stream monitoring	Power + Integration processing
Future Truth Projection (963Hz)	विशुद्ध + आज्ञा	Quantum probability field generation	Communication + Wisdom synthesis

Integration Components

Core Processing

- e5-base-v2 model integration
- Prime number resonance patterns
- Fractal file structure
- Docker container network

Sacred Geometry

- Hexagonal node arrangement
- Golden ratio (φ) scaling
- Fibonacci progression
- Self-similar patterns

Quantum-Neural Bridge

- Wave function coherence
- Field dynamics stabilization
- Temporal echo analysis
- Pattern emergence detection

System Harmonics

Type something...

The system maintains harmony through three key mechanisms:

- Frequency Synchronization: Each DOJO pulse aligns with specific chakra frequencies
- Geometric Alignment: Sacred hexagonal arrangement ensures balanced energy flow
- Quantum Coherence: Wave function stability across all processing layers

Truth Building Process

Interface → Historical Scanner → Present Verification → Future Projection → Quantum Processing → Knowledge Integration → Universal Truth Field

Practical Applications

Type something...

The integrated system enables:

- Temporal truth verification across past, present, and future dimensions
- Quantum-neural processing with chakra-aligned frequencies
- Fractal scalability through sacred geometric patterns
- Universal knowledge integration via ज्ञान consciousness bridge
